

Technical Data Sheet

Sodium Iodate, NaIO_3

Certified

Product Code: 6008

Sodium iodate is a mildly oxidizing salt of a sodium cation and an iodate anion. Suitable for use in all applications where a source of iodine is needed in the form of an oxidizer. Use also for an oxidization source or catalyst in chemical reactions. Use for laboratory reagents and similar applications.

IodiTech's certified NaIO_3 is made using the purest raw materials, from the most reliable sources, in a state-of-the-art production facility. This certified sodium iodate meets, or surpasses, all recommendations for NaIO_3 for industrial or laboratory purposes.

Technical Identification and Description:

Chemical Name:	Sodium Iodate, $\text{NaIO}_{3(s)}$
CAS:	7681-55-2
Characteristics:	White to off white crystalline powder with free flowing characteristics. Odorless.
Particle Size:	Small particles of varying grain size.

Technical Data Sheet

Typical Analysis:

Assay	99.0 - 101.1%
Visual appearance	White to off-white
pH	4.3 - 8

Note: Minimum and maximum indicate limits of detection.

Available Quantities:

25 lbs 6008-050

25 kgs 6008-055

Note: All shipments are in UN approved plastic containers with food grade polyethylene liner.
